SEPTEMBER 2012 SUMMITER :

Congratulation to:
Vanessa O'Brien / MS

Vanessa O'Brien :

After Everest, Carstensz Pyramid at 16,023 feet (4,884m) was the hardest of the seven summits. I summited on 23 September 2012 with Adventure Indonesia. It was the hardest because the rock climbing was difficult as was the jungle trek but we still expedited the climb to 9 days.
